## TOWNSHIP SIDEWALKS BEING DESTROYED BY HEAVY TRUCKS

Council Will Prosecute All Persons Driving Vehicles And Machinery Over Walks—Walks Will Be Repaired—Contract Let For Construction Of Water Main—New Assessor Appointed

North Grimsby Township Council met Saturday afternoon in the Municipal Building, and in the four hour session considerable business was attended to, with the most important item being the accepting of the tender of a Hamilton contractor for the laying of a six inch watermain. The locale of this additional service is in the Park Avenue, and 1st Street area on the Rosebrugh survey. The tender of W. Groves of Hamilton was the only one submitted, their price being \$1,702.00 for the installation of approximately fourteen hundred foot of six inch main. The Township will supply most of the pipe and other materials necessary for this extension.

Samuel Ecker, ex-Reeve of South Grimsby, appeared on behalf of the Smithville Agricultural Society, and asked Council for assistance. Mr. Ecker stated that the Smithville Fair had been gaining ground in recent years, and that they hoped to eventually construct a Community Centre on the grounds.

Councillor Bartlett went on record, stating that "I haven't changed my opinion about assisting neighboring townships, and I can't see yet that I should change my mind."

Deputy-Reeve Aiken and Councillor McNiven, however, voiced opinions that it has been the custom for years to assist the Smithville Agricultural Society as well as other organizations.

Mr. Ecker pointed out that it was a well-known fact that "we" meaning the people of Smithville and South Grimsby, patronize Grimsby to a considerable extent.

Counted Councillor Bartlett, "Yes, but that is the town, this is (Continued on Page 10)

## COUNCILLORS INSPECT CEMETERY SITUATION

No Doubt That Extension Will Have To Be Made This How Large?

Following up the suggestion stressed by Mayor Harry Bull at the last three meetings of Town Council, that some action should be taken immediately to provide for the extension of Queen's Lawn cemetery, members of council visited the cemetery on Saturday afternoon and gave the acreage a very close inspection.

While no immediate action was taken, still the consensus of opinion was that an extension to the cemetery was needed this summer, although only one member expressed an opinion as to just how large that extension should be. He believed, The Independent understands, that a five acre plot would be sufficient.

## RECEIVES DECORATION

Group Captain H. R. Dowie, R.C.A.F., of Grimsby Beach, attended the investiture in Toronto on Friday last and received his decoration Order of the British Empire. This decoration was granted some months ago but delay in the manufacture of the medals caused the investiture to be postponed until last Friday. Flt./Lieut. R. C. Moyer, also of Grimsby, received his Bar to the Distinguished Flying Cross.

## GRIMSBY IN HEALTHY SHAPE

In his annual Auditor's Report to the municipal council of the Town of Grimsby, S. Stewart Joscelyn, Town Auditor, gives a very comprehensive statement of the condition of the corporation. A copy of this complete statement can be had by any ratepayers upon application to Town Clerk G. G. Bourne, at the Municipal Building. We print herewith Mr. Joscelyn's brief remarks anent the financial status of the municipality and the yearly statement of assets and liabilities.

The operations of the Town for the year ended December 31, 1947, resulted in an excess of Revenue over Expenditure of \$1,557.50. The details of these operations are shown on Exhibit "D", together with supplemental details on Schedule No. 6.

Schedule No. 5 presents, in abstract form, the cash transactions of the Town for the year ended December 31, 1947. Cash on deposit at that date amounted to \$11,600.64, as compared with \$1,473.46 on deposit at December 31, 1946, an increase for the period under review of \$10,127.18.

Collection of current taxes for the year ended December 31, 1947, amounted to 96.01% of the current tax roll as compared with a total collection of 96.85% of the 1946 tax roll, collected at December 31, 1946, and a total collection of 96.28% of the 1945 tax roll, collected at December 31, 1945.

Collection of current taxes, tax arrears, penalties and interest amounted to \$81,781.89 for the year ended December 31, 1947. This is equivalent to a collection of 98.06% of the current tax roll, as compared with an equivalent collection of 101.21% for the year 1946 and 104.03% for the year 1945.

## WINONA MEN'S ORGANIZATION SUCCESSFUL IN THEIR WORK

The Close Co-operation With Which They Work Together Is A Success Story That Other Service Clubs Would Do Well To Follow.

"To take an active part in the social and moral welfare of the youth of Winona and district" . . . is part of the ideals of the Winona Men's Club which in a few short years, has made rapid strides in the improvement of the community in which they function.

The close co-operation with which they work together is a success story that other service clubs would do well to follow, and it is through this closely woven co-operation, that the Club has made monumental strides along the improvement line in the Winona district.

Promoting sport activities, child welfare work and general civic improvement program is the main purpose of the Club. Their recent dedication of a shield to the best all-round graduating student from the local school is but another sample of their fine ideals.

The Club have in the past supported (Continued on Page 5)

## FIFTY YEARS AGO

(From the Spectator files of Tuesday, April 12, 1898.)

Strawberry plants are in bloom along the Grimsby road, and the buds on the early peach trees are beginning to open.

County Council meets on Tuesday next.

## IN THE DAYS WHEN THE THREE "R's" WAS HIGHER EDUCATION

This picture really had the boys and girls going around in circles. None of those in the picture, still residing in Grimsby, were able to pick out all of their former playmates but by combining their efforts they did a pretty fair job.

Upper left—Lenore VanDyke, Flossie VanDyke, Fred St. John, Ev. Schofield, Maud Mulligan, Myrtle Grasley, Flossie Grasley, Helen Scott, Dorothy Denison Agnes Louks.

Second row, left—Ken Mabey, Reta Marsh, Clara Randall, Lottie Grasley, Amos Wentworth, Patsy Flood, Ray Miller, Edna McNinch, Irene Coulson, Leter Larsen.

Third row, left—Earl Cornwell, Leslie Gilmore, Roy Ryckman, Ernest Wadge, Charlie Teeter, Reg Haist, Roy VanDyke, Harold Grout, Cecil Bonham, Agnes Lipsit.

Fourth row, left—Orland Vaughan, Charlie Grasley, Evie Grasley, Winnie Neal, \* \* \* May Schofield, Mabel Teeter, \* \* \* Billy Farrell, Roy Calder.

## FIREMEN HAVE BUSY WEEKEND

## INDUSTRIAL ASSESSMENT PLAN DOES NOT SUIT TOWN COUNCIL

Fine Large Barn Of Marvin Southward, West North Grimsby, With All Contents Completely Destroyed—Grass Fires Again Are Keeping Fire Fighters On The Jump—Electric Wire Causes Scare.

Grimsby firemen over the weekend had rather busy time of it, but fortunately, with one exception, property damage was nil. The local department answered two calls on Thursday afternoon, one call Friday morning one call Saturday night and one call Sunday afternoon.

Breaking out shortly before 9 o'clock Saturday night fire of undetermined origin completely destroyed a large barn on the premises of Marvin Southward, baseline road at the lake-front, in North Grimsby Township. Seven young pigs; a considerable quantity of baled hay and straw and some implements were lost.

The blaze was discovered by neighbours who rushed to the scene and managed to get a couple of hogs and a trailer out of the burning building. Both Mr. and Mrs. Southward had been away from home for some hours when the outbreak occurred.

The first person who telephoned the fire department, obviously (Continued on page 5)

## THIS BOY SELLS YOUR FRUIT

All Lectures And Speeches At Public Gatherings Must Be Given In English — No Smoking Ban.

Board of Education, at its monthly meeting, ruled that all lectures or addresses given at events held in the high school auditorium must be in English only. Nearby schools and local organizations for community welfare may obtain use of the auditorium free of rental charge but will be asked to pay \$3 janitor. Scouts, Brownies and Girl Guides may have the premises free of any charge. It was ruled that smoking would not be allowed in the auditorium, and that no alcoholic beverages would be allowed on the school property. A.V. Catton's suggestion that subversive organizations be banned from use of the auditorium was not accepted. It being decided that the board would make its decision on an application of this kind if and when it arose. Request of John Yanko, on behalf of the Polish Alliance Friendly Society for use of the auditorium was not accepted.

### GRIMSBY WEATHER

Week ending at 8 a.m., Monday, April 12th, 1948.

Highest temperature 72.2

Lowest temperature 25.5

Application of Precipitation 1.02 inches

Soil wet.

Fine Rods In Canada Are Made In Grimsby By Scott Fishing Tackle Co.—Thousands Of Dollars Worth Of Rods Sent To Factory Every Year For Repairing And Refinishing.

The magic word "fishing" is often the only thing necessary to completely distract an otherwise hardworking, conscientious man, who will immediately try and find ways and means to get away from the grind of his daily routine, and get out of town, to spend a few hours, a few days or perhaps a week, simply fishing. The thrill of landing anything from a six inch brook trout to a three pound bass does something to a man's morale. And strangely enough it is the thrill of landing a fish, rather than the meal in store that completely fascinates the male species.

This article is especially prepared for those connoisseurs of true fishing, the man who is the underdog, with the fish an odds on favorite. It concerns the man who will stand hours on end fishing (Continued on Page 9)

## MUSICAL PRODUCTION IS REALLY BIG SHOW

Lions Club Leap Year Revue To Be Presented TONIGHT And Friday Night At High School.

Curiosity got the better of us, so we dropped up to the dress rehearsal of the Lions Club Leap Year Revue, to see just what the heck Pierrettes and Pierrots are, what they do, and who they are. We found some seventeen girls dashing about in a sort of white creation, and fourteen males also running through last minute acts, songs and dramatic parts, all of which are combined to make a presentation that really is different.

The Revue is directed by Col. G. R. Chetwynd, with the assistance of Dick Mitchell as musical director, Harold Brownlee, stage manager, Herb Jarvis in charge of properties. Bert Constable, Vern (Continued on Page 5)

Coun. Bonham Claimed "The Assessment Situation In This Town, As Regards Industries, Stinks To High Heaven And Is Making The Little Householders Subsidize Industry."

In a very lengthy session on Friday night, that lasted until 12.30 Saturday morning Town Council handled a lot of business of a varied nature. A great number of minor items were up for discussion some of the questions having been discussed around the council table on several previous occasions, one of these questions was the large catch basin on Robinson street south which led Councillor Bonham to remark "I have heard this question debated for four years, for heaven's sake let us do something about it and be done with it." It was not water overflow that caused the talk this time but the fact that the basin is a dangerous one from a standpoint of children playing around it and liable to be injured. It was suggested that the basin be protected by a heavy screen but no action was taken.

Strong criticism of reportedly low assessments on local industrial plants was voiced by the Council. It was intimated that council members would, at the next Court of Revision, enter appeals against the assessor's property valuations.

The question was raised when a letter from the firm of A. Hewson and Son asked for cancellation of 1948 taxes on the basket factory, destroyed by fire early this year. Reporting that the total assessment on the Hewson factory land and buildings was only \$3,650, Councillor C. M. Bonham said: "The assessment situation in this town, as regards industries, stinks to high heaven and is making the little householders subsidize industry. That Main Street property, (Continued on Page 10)

## LINCOLN HEALTH UNIT PROTECTING CHILDREN

Immunization Against Diphtheria, Whooping Cough And Smallpox Is Made At All County Clinics.

(By Dr. D. V. Currey, M.O.H.) At the St. Catharines-Lincoln Health Unit Clinics the baby, commencing at five months of age, may be protected against three serious illnesses in four visits to the Unit. Parents should make sure that the inoculations are completed and that certificates are received and carefully put away in the special envelope provided.

The diphtheria toxoid and whooping cough vaccine are combined and given in three doses a month apart. The smallpox protection is usually given separately, but may be received at the time of the second dose of the combined material.

The routine used in all Unit immunization clinics is:

1. At the first visit the baby receives diphtheria toxoid with whooping cough vaccine.

(Continued on Page 10)

## METAL CRAFT INSTALL NEW SPRINKLER PLANT

This System Of 900 Heads Is Fed By An Eight Inch Water Main Carrying 114 Pounds Pressure.

The Metal Craft has recently had installed a Vipond Sprinkler System, that services the entire floor space of the plant and offices. Some nine hundred sprinkler heads stand ready to do their work in case of fire, the entire system is of the latest design stated Mr. A. R. Globe, President of the firm.

The system operates on a dry system, that cannot freeze. Pipes are filled with air, which in the event of a fire would be drained, and automatically a valve is tripped which would fill the system with water.

The control room is located in the basement, where an eight inch main enters the premises from Depot Street.

Officials of the Vipond Company expressed admiration of the 114-pound pressure which is maintained at all times, and stated that this is one of the best water pressures they have come in contact with, which is indeed a tribute to Mayor Bull and his water

## FACTS &amp; FANCIES

Frank Fairborn, Jr.

## ONTARIO WAS WISE

When the Drew government in Ontario refused to take hook, line and sinker, the Dominion government's offer of a certain annual sum for surrender of its tax fields, it is now well proven that there was wisdom in its course. The current provincial budgets establish the case pretty well.

In the case of this province, as The Toronto Telegram analyzes it, "the Dominion offered Ontario \$74,438,000 for tax fields worth, at present rate, \$87,863,000 and from which the provincial government last year collected no less than \$72,063,000 without imposing personal income taxes. Had the province imposed a personal income tax at 5 per cent of Dominion rate it would have raised an additional \$13,425,000. In other words, the Dominion was offering Ontario \$74,438,000 for tax fields worth \$87,863,000. No wonder Queen's Park ministers are elated that they didn't make that agreement."

British Columbia under the leadership of Liberal Premier John Hart, made an agreement and Mr. Hart told his province that they had escaped double taxation. What has happened? The British Columbia Treasurer, Herbert Ascomb, on March 17, this year admitted that had his province retained the tax rights it handed to the Dominion, it would have been able to collect a very considerably larger sum than it will receive in compensation from the Dominion. That is not all, British Columbia has already discovered its revenue, with the Dominion subsidy included, is not adequate to its needs and the province has had to resort to the levying of a 3 per cent sales tax of its own on retail sales. British Columbians must now pay the 8 per cent Dominion sales tax and the provincial sales tax, too. And Mr. Hart promised them the Dominion-Provincial agreement would avoid double taxation!

As The Toronto Telegram points out, by refusing the Dominion offer, Ontario remains master in its own house, taxes can be applied where and when needed if new revenues are required. And for the forthcoming year, there are no new taxes at all. We are not paying a double sales tax, on eight per cent to the Dominion and one of three per cent to the province as they are in British Columbia.

## C.C.F. WOULD GRAB OUR FARMS

With their only substantial success scored in agricultural Saskatchewan, the CCF have been notably silent on one major plank in their platform for socialism-nationalization of farm lands. That sort of thing, they know would hardly appeal to the men who till their own land in Saskatchewan and who incidentally, cast the deciding vote in any election in that province.

Party strategy, presumably, directs that the farm nationalization plank be kept well wrapped in moth balls until perhaps the CCF wins some urban ground. Then, in keeping with the well-established CCF policy of stirring up one class against another, it could be dangled in front of city voters who would be told that taking over the farms would mean cheaper food.

But sometimes in the heat of debate a CCF spokesman, forgets the official time table and lets the cat out of the bag. That appears to have happened in Parliament the other day. The Printed Word dug up this disclosure:

Mr. E. L. BOWERMAN, CCF member for Prince Albert: "We are driven to this conclusion—the only thing that will solve our present social and economic problems is absolute Christian socialism of the means of production and distribution of all the necessities of life.

Mr. GRAYDON: "Does that include farmers?"

Mr. BOWERMAN: "That would include everybody."

Canadian farmers everywhere would do well to note that direct threat. When CCF orators start talking of the State taking over they don't just mean the banks and the insurance companies and some of the big urban industries, they mean all forms of production, of which the farms are the greatest and most important.

## SILLY EXCUSE

Surely the bag of the government carrying excuses for refusal to let the people have margarine is getting pretty low. Hon. James Gardiner came across yesterday with a new one, and a silly one, too. Margarine, he said, will cause such damage to the dairy industry that Canadians won't get milk and their health will be badly affected.

It has never been argued anywhere by any responsible person that margarine should be a substitute for butter. That it should be a supplement to butter is a reasonable position, a supplement in times when the dairy industry falls down and can't satisfy the home market, or other times when the price of butter gets so high that the workingman with a considerable family simply cannot afford to buy it.

And why shouldn't he have it when the Canadian Medical Council says that good margarine is more nutritious than dairy butter? Senator Hardy of Brockville, who operates a dairy farm, is one authority who declares that margarine won't ruin his farm or the dairy industry. That seems to be reason itself. People will always want butter and the market will always be good for it.

As things are, according to Mr. Gardiner, Canada is to maintain this vicious class legislation, a monopoly which benefits one industry. It is the most nefarious form of high and exclusive protection Canada has ever indulged in, and we have had plenty of just that in the past. There is no justification whatever for the continued outlawry of a good food for the table.

## AFTER THE TAX DODGER

Canada's tax dodgers had better start taking violent evasive action, writes Ronald Williams in The Financial Post. Canada's little publicized corps of financial G-men are getting the range and bringing down more and more tax chisellers every day.

"The anti-tax evasion guns really began laying down a barrage about a year ago, he reports. The enemy now as then: deliberate, wilful, fraudulent tax jugglers.

"The taxpayer who makes an honest mistake has nothing to fear; it's the schemer tax crook the Government is after.

"To man the new tax enforcement guns, a special branch was set up within the Income Tax Branch during the war. But it didn't pack much of a punch until a year ago. Since then a small but highly efficient group of specially trained Intelligence or I-men have piled up an imposing record of conviction.

## APRIL LANDSCAPE

This is the time of great transformation, when color comes back to an eager, waiting countryside and the earth responds to the touch of sun and rain and gentle winds. As one looks out from the hilltop, there is the tide of sweet green engulfing the hedgerows and the woodlands. The old barrenness and brownness have gone; the new young leaves clothe the trees in delicate waves of varied tint.

Green and gold are the predominating colors. How cheerful they are! On the banks at the roadside the celandines are scattered profusely and in the meadows the first buttercups are glinting in the strong sunlight. Larks rise over the plowland and pasture adding their songs to those of the linnets flying to and fro over the lane.

The first primroses are back in their old haunts—the mossy undergrowth of the copsewoods—their scent distills out into the air and fills the heart with gladness. Thus the symbols of the spring appear in the countryside, and none more welcome than the "Daffodils" that come before the swallow dares."

On the hillside of Devon, they crowd beneath the apple trees and dance in every wind of heaven. They range their fair legions by woodland pond and at the streamside, just as Wordsworth portrayed them. They stand in every garden and cluster on dreaming lawns, a splendid and innumerable host.

All the early bloom of street and village has come and gone. The ornamental trees of many varieties have hung out their panoplies for a short space and then the petals have fallen away. Now the flowering whiteness has been transferred to the pear trees, which billow high in the orchards down the lane. Then, most marvellous of all, the cherry comes to its full perfection, a glory of virgin cloud poised over the hedgerow along the wood's edge or surprisingly in some gray niche of stone in the city street. Truly the poet, Housman, wrote: "Loveliest of trees the cherry now," and its short-lived beauty dominates April days.

Coincidentally, the blackbird sings his best when the cherry blossoms, so that the gardens resound to a chorus of sweet flutings that put all other bird music far in the background. From silver-painted dawn to scented dusk, the music flows and time is marked off by petals falling lightly to the earth while the songs ever increase in volume and sweetness.

It is good to see the new greens of the hedgerows, stretching ahead on each side of the lane, probably the freshest, clearest green in all the lane, rivaled only by the new foliage of the beech trees high up on the chalky hill. No clustering woods can ever show such amazing brightness of tint and later, when bluebells carpet the ground, stretching far to the hazy distance in a sea of color, then it can truly be said that here is the very peak of springtime.

One by one, the bird migrants return to

tions, jail sentences, fines and collections of back taxes.

"Up to last week, 95 cases of deliberate tax conspiracy and falsification had been prosecuted. Only one case was lost."

## "DIDN'T HAVE A CHANCE!"

Little Jimmy was hit by a car the other day. One moment he was playing gaily on the road, the next he was lying quite still. The driver who hit him said he didn't have a chance to avoid the child. He didn't think that the little fellow, romping with his pals on the left side of the road, would scamper the entire width of the road at the sound of his horn. But he did. A child's actions are unpredictable and he could have kept his car under control at a safe distance until he was certain it was safe to proceed. This would have cost him a few extra seconds. The time he tried to save cost Jimmy his life.

Safety experts point out that children are carefree rather than careless. They naturally look to adults to look out for them. A child is a poor judge of speed and distance, and his thoughts rarely take into consideration his own danger. When he is intent on his games he resents the intrusion of the motorist who rouses him from his world of imagination to one fraught with danger. It is hard for him to react safely in that split second which the motorist allows him.

Constant efforts are being made in Ontario schools to teach children to be careful when walking or playing in the vicinity of moor traffic. But records show that most child accidents occur on holidays, when children are most prone to ignore the safety lessons. Such information should be significant to those who drive.

Responsibility for children's safety is largely the driver's. His proper use of care, caution and common sense will never put him into the position of saying, "I didn't have a chance to avoid him."

## Penned and Filtered

Many a live wire would be a dead one except for his connections.

There's no sense in advertising our troubles—there just isn't any market for them.

Any community can make important gains, if its people will cooperate well for such progress.

Do not fail to read the advertising. It gives information that is highly valuable when one comes to buying goods.

the old familiar haunts. In March, the wheat-ears came to the uplands—the earliest of all—but, in the first few days of April, there, high up on the bare branches of an ash tree, the chaffchaff tucks out his monotonous catch. Then the little whitethroats, the garden warblers, the blackcaps, and a host of small birds; until, at the month's end, along the river and over the mill pond, we see the first swallows skimming back and forth and sometimes coming to inspect the old nests under coachhouse eaves. Given normal conditions, they arrive each year most punctually—never varying by more than two days—and then, while the kingcups glow in their courtier-like magnificence along the streamside and the lady's-smocks lie bleaching modestly in the water meadows, we feel that the spirit of spring is over all.

Evening and week ends brings great activity to the village. The long gardens which come down to the road are well and truly dug over and their owners, having worked hard all day for someone else, proceed to work even harder for themselves. This is a labor of love and, besides producing a great variety and quantity of vegetables and flowers, every man has his mind set on the Horticultural Show at the summer's end. And, when one uses the word "man" in Mellingfold, it includes Miss Gibson, who dresses like one and works as hard, oftentimes running off with severals of the best prizes.

S, while the daffodils look on, for obviously they toil not neither do they spin, our god villagers dig and rake and hoe, setting their seeds and running on in imagination to September when they hope to beat old Webley's record for marrows or Mr. Lewis' champion onions which were eighteen pounds weigh for six, but so coarse as to be completely uneatable!

But Benny Broome is not interested in vegetables—they being only a side issue with him. Giant sweet peas are his specialty and the trouble he goes to, in producing them, is simply prodigious. On April evenings, he is lost in a wide deep trench which he digs out and fills with some rich mixture of special soil and humus. It scarcely seems worth while to take somuch trouble until the result is seen when summer reigns. Then we make special expeditions to see Benny's sweet peas and, if there's as nothing else to be seen in Mellingfold, this sight would be sufficient.

So the day lengthens, and the sunshine and the bloom all bird song increase, until there is such a galaxy of tint and beauty that the mind cannot absorb it all. We can but observe and marvel at the new sweet greens that flood the landscape and the billowing cloudlike blossoms that are suspended over the glad earth. The golden legions of marigold and buttercup mass in the meadows and the music of bees is everywhere. Heat begins to shimmer over the strengthening grasses, and the scent of primroses and bluebells mingle with the kindly air. All too soon, April comes and goes in its brief resurgence of loveliness and man looks on and grasps what he can in its traverse across the countryside.—T. Lovatt Williams, in Christian Science Monitor.

The long gardens which come down to the road are well and truly dug over and their owners, having worked hard all day for someone else, proceed to work even harder for themselves. This is a labor of love and, besides producing a great variety and quantity of vegetables and flowers, every man has his mind set on the Horticultural Show at the summer's end. And, when one uses the word "man" in Mellingfold, it includes Miss Gibson, who dresses like one and works as hard, oftentimes running off with severals of the best prizes.

S, while the daffodils look on, for obviously they toil not neither do they spin, our god villagers dig and rake and hoe, setting their seeds and running on in imagination to September when they hope to beat old Webley's record for marrows or Mr. Lewis' champion onions which were eighteen pounds weigh for six, but so coarse as to be completely uneatable!

But it does augment substantially the income of the weekly wage-earner with an average family. Yet, the aspect of the plan seems to have completely escaped Mr. Millard's attention when he spoke of the minimum wage necessary to keep an average family healthy and comfortable.

Mr. Millard concluded his address with the flat assertion that the CCF party was the only one with a really democratic workers' program, and therefore urged all members to support it. Without entering into any discussion of the relative merits of the various political parties from the workers' viewpoint, it is in order to express the thought that this may prove to be a boomerang. That is said, not because Mr. Millard endorsed the CCF, but because when a union official, in effect, tells the members of his organization how they should vote politically, he invites retaliation.

If union men, under the direction of their leaders, gang up to support and elect some one party, it seems inevitable that other groups will unite to defeat that purpose. Otherwise the country will cease to be a democracy. Instead it will be governed subject to the dictates of the leaders of a small, but highly organized minority of the citizens.

Roll out the lawnmower . . .

This weather really causes speculation as to Blossom Week. But it is far better deferred than coming too soon . . .

People should read the advertising in this newspaper, as it contains a great deal of information that is valuable to the public.

At 12:01, on Sunday morning, April 25th, by proclamation of one Harry Bull, Mayor of Grimsby, Daylight Saving Time will come into effect. I don't blame the doughty Mayor, but I still think that DST is a curse.

Poor Ma. It's either too cold or too hot. Long Jack Smith didn't cut the lawn right. The Men of Lawrie were too long picking up the garbage, etc., etc., etc. MacKenzie King is to blame for it all. Oh, woe is me.

In a very short time, householders will face the task of putting up screens. It will not be made easier by the remembrance that they must take them down again when autumn comes—with storm windows to be put up shortly afterward. And just to pile it on, there's a bit of window-washing to be contemplated on both occasions.

It's a funny thing, but there are a lot of people in the Fruit Belt that are doing a lot more worrying over my Sir Lovely Widows than I am. They are not all of the feminine sex either. Couldn't be that the Green Eyed Monster exists in a lot of places, or could it? Just don't be worrying about my gals. When the fishing season gets under way I am going to take the whole bunch up to Little Whizzer's summer home for a 10-day respite from grief and worry. Boy, won't Whizzer have a whale of a time.

CHARLES MILLARD'S SPEECH—

Like most successful labor leaders, Charles Millard, Canadian director of the United Steel Workers of America is a persuasive public speaker; particularly when he is addressing an audience of union members who like to hear the kind of

Strictly Canadian by Claire Wallace

Following a funeral in the family, there are many duties still to be performed. Continuing our subject of last week:

Engraved or printed cards acknowledging sympathy are sent nowadays when a public figure dies but a written note is in much better taste and is the only acceptable way of acknowledging flowers or a personal letter. It is extremely trying and very heart-breaking to write acknowledgements of sympathy but it must be done. It is correct, however, for members of a family to write these letters for each other; that is, if a father has died, a daughter may write, acknowledging sympathy saying: "Mother has asked me to thank you for the flowers you sent and the kind message of sympathy."

I have been asked several times if it is all right for a family in mourning to send out Christmas cards to close friends. Yes—the cards should be chosen with care so that they are cordial but quiet in sentiment and design. Friends appreciate a card sent by someone who has had a bereavement but still has a thought for others and their happiness.

Mourning was first worn so people could avoid the "unclean" relatives of the dead. In Africa, red is the colour of mourning; white in China; yellow was mourning colour in the time of Henry VIII.

It isn't necessary nowadays to wear all-black to show you mourn the loss of a dear one. Of course, no one would turn out in bright colours and black is worn the day of the funeral but after that, dark, subdued clothes are considered quite appropriate.

Attending a funeral, don't wear every-day clothes but, again, use discretion and don't be to brightly garbed. Children never wear mourning. A man wears a black tie for a short time after a death in the family; the black sleeve-band seldom is seen nowadays.

Only the widow goes into mourning and even she isn't too dramatic about it. She wears a black outfit including black or gunmetal stockings, gloves and hat but "widow's weeds" are now passe.

People who are unable to attend a funeral may pay their respects by calling on the family beforehand. It is not necessary to stay more than a few minutes and this is one of the times when the old-fashioned calling card has a useful place. As a caller may not see a close relative of the deceased, it is a nice thing to leave a calling card as a tangible sign of your visit to the home.

If the call is made to a funeral home, there is usually a book to sign so the family will know who has called.

Friends who write letters of sympathy should make them brief as possible. Just a few words are enough, saying: "I am so sorry to hear of the death of your brother and want you to know that my sympathetic thoughts are with you at this sorrowful time." This, written on one page, is much better and kinder to the bereaved person than sending a long and involved letter, because letters received at this time are so numerous that, very often reading and answering them becomes quite a burden.

Readers are invited to write Claire Wallace, about their problems. Address: Claire Wallace, care The Grimsby Independent, Grimsby, Ontario, Canada. Replies will appear in this column.

FAVORITE FOR SPRING

By PRUNELLA WOOD

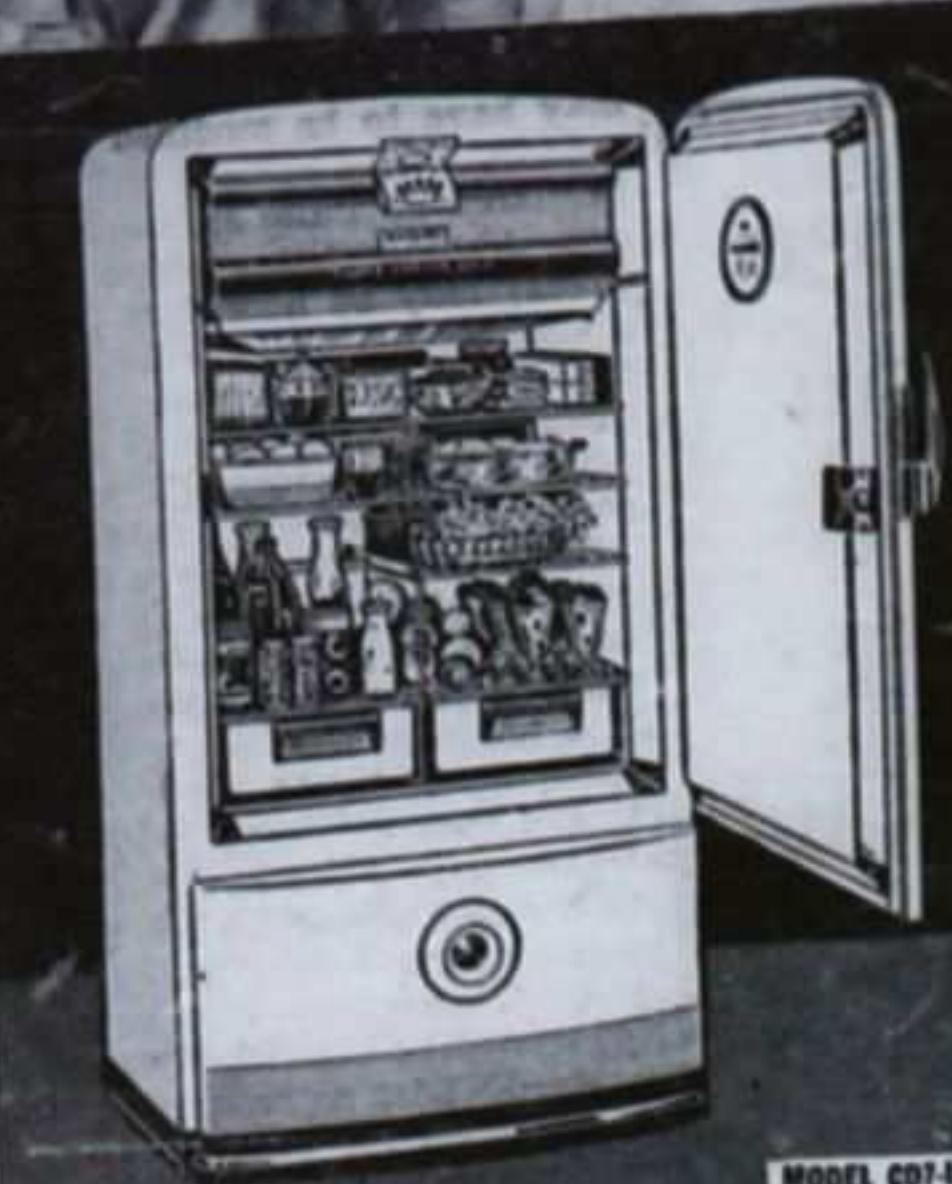

This is the silhouette which the campus girls appear to like the best this Spring. They go for the sloping shoulders and flared back of the jacket; they like the flare beneath a neat waistline which the plaid skirt gives.

Claire McCardell provides the silhouette, deeming this suit in gray, yellow and white plaid wool for the jacket; gray wool jersey for the jacket; and fine checked yellow and gray cotton for the blouse and the jacket lining.

See for yourself how

Hello Homemakers! We have had many requests for the directions to make good homemade bread, after the rise in the price of this item. It has been a long time since we baked bread, so home-to-mother we went for the necessary advice.

The first remark was: "At this time of year, you should take particular care to see that all cooking materials are warm, also the ingredients. No drafts should cross the sponge when it is rising, or in fact, at any time. A little care makes all the difference in the quality of the finished product."

Bread bakes better in a pan that is not more than 3 1/2 inches deep. The temperature given in the recipe should be satisfactory, but may have to be modified for best results. If the oven is not as well insulated as those in electric ranges, a higher temperature (25 degrees) may be necessary.

Compressed yeast or quick granular yeast may be used interchangeably. Granular yeast is less perishable than compressed yeast and is convenient for bread-makers who do not market every day. The amount of yeast may be adjusted according to the convenience of the cook. If you wish the dough to rise in 4 hours or less, use 2 cakes for each cup of liquid. As an inexperienced cook, you may prefer to use 1 cake with 1 cup of liquid for a 5 to 6 hours rising period. The new quick acting yeasts are most successful, especially if you use a quick, light kneading method.

Hard-wheat or bread flour is recommended for breads, but all-purpose or family flour makes good bread, too. Use enriched flour or part whole wheat flour for best nutritive value and flavor. As mentioned previously, flour should be warm, but not hot.

We use skim milk which produces good color and keeping quality compared to potato liquid or water.

Now the recipe for white bread with detailed instructions.

### WHITE BREAD

3 tbsps. sugar, 2 tbsps. fat, 2 tbsps. salt, 4 cups scalded milk, 2 yeast cakes, 12 cups enriched flour.

Place the sugar, fat, and salt in a large bowl; add the scalded milk; cool until lukewarm. Crumble the yeast into the lukewarm mixture. Add about 4 cups of flour and stir vigor-

### A Good Line

By ALICE ALDEN

The flared, unbelted silhouette means, of course, that the princess line is back again, and most becoming it is too, as it is handled today. New York designer William Basie comes through with a simply smart or smartly simple resort dress of black and white dotted crepe, that is sure to be the ticket at home later in the season. The full-skirted princess silhouette uses softly pleated fullness at either side from the nipped in waist. A black button fastening, and a black velvet tie under the pointed collar are other details.

The same thing that Sherman said about war so goes for politics.

Many a temperamental person doesn't know how to control his temper.

### WANT TO GET MARRIED

Now a group of Los Angeles girls has organized a "We wanna get married club." This organization's spokeswoman says in part: "Bachelors are scarce out here." That

statement isn't in accord with the statistics. The most recent report shows there are 918,785 unmarried men of marriageable age in California. Not only that. There are 348,709 more unmarried California males of marriageable age than young females are looking. The girls aforementioned should call their organization the "We wanna group. It is undoubtedly easy to marry a dream-man club."

# SENSATIONAL

TRADE-IN ALLOWANCE ON YOUR OLD RADIO, REGARDLESS OF CONDITION

DEFOREST RADIO-  
PHONOGRAPH

## CONTINUATIONS

From Page One

**FIREMEN HAVE**  
excited, yelled. "Quick, come to the  
fire," and then hung up without  
giving any intimation of where the  
fire was. Efforts to trace the call  
were unsuccessful, and firemen  
had to stand by and await a second  
call, which came through the Winona  
exchange.

The department was called to the  
Don Morton property Park  
Mountain Road on Thursday afternoon  
to stop a grass fire that was  
getting beyond control and shortly  
after had a similar job to perform  
on the Atchison survey. On  
Friday morning they had a bush  
fire to quench on top of the Wool-  
erton mountain.

Sunday afternoon a hydro wire  
with the insulation worn off was  
rubbing against the side of the  
house of Mrs. W. H. Groce, Maple  
avenue. The department was  
called and they in turn called the  
Hydro trouble crew. No damage.

**MUSICAL PRODUCTION**  
Tuck, Dyke Lawson, Herb Betzner  
and Mel Johnson are the rest of  
the technical staff for the presentation  
that features a fairly large  
cast of local talent.

Actually those taking part have  
whipped the Revue into shape in  
rather a surprising fashion, and we  
have a hunch that those attending  
the show will be very well enter-  
tained.

The old songs and the music  
within the production is perhaps  
the feature of the show. These  
catchy ballads are performed very  
well by some of the young men  
and women who hold singing parts  
in the revue.

The dramatic parts appear to be  
a trifle "heavy" but a good job is  
done by those with acting roles.

We think you will enjoy yourself  
with Pierrettes and Pierrots, the  
story or plot is strong enough to  
maintain your attention, while  
comedy relief parts have been inter-  
jected in just the right spots.  
The cast is made up of: Gloria  
Jarvis, Penny Smith, Olga Hudson,  
Jackie Constable, Jane Higgins,  
Olive Dunn, Kathryn Jarvis, Mary  
Bishop, Beatrice Demerling, Joyce  
Maycock, Audrey Bowers, Betty  
Lonsway, Susette Sutherland, Evelyn  
Uren, Stella Ivanchuk, Jackie  
Ellis and Jewel Stezik.

The male cast consists of: Dick  
Mitchell, Reg Henderson, Walter  
Rushak, Harold Jarvis, Bill Fisher,  
James Baker, Tom Erskine, Don  
Awde, Herman Terry, George  
Shoemaker, Bob Bourne, Herb Gil-  
lespie, Jack Ansell and Don Gard-  
ham.

**WINONA MEN'S**  
posted baseball and hockey teams,  
and it is noteworthy that always  
these teams have led the way in  
sportsmanship on the diamond or  
the ice. But the motto of the Club  
was clearly shown this past winter,  
when they opened to the public an  
outdoor rink that was utilized by  
hundreds of children and adults.  
The rink was lighted, and when it  
came to a source of water, this ob-  
stacle was overcome by hauling the  
water in by truck.

Meeting in the Plaza Restaurant  
once a month, the Club's activities  
do not end there, for several com-  
mittees daily are on the lookout  
for means of further improving the  
community.

Four active committees work  
together, and these include the  
Boys' and Girls' Health and Wel-  
fare Committee, the Civic Improve-  
ment Committee, and Athletic  
group, and a Progress and Welfare  
Committee.

Most recent of the Club's activities  
has been the presenting of a  
petition signed by a great major-  
ity of the residents of the area,  
to the Council advocating a park and  
playground for the children.  
This movement backed by the people  
is likely to get top priority by  
the Council, who have through the  
eyes of the Club, a true view of  
the people who place them in office.

Summing up the fine work done  
by the Club, now headed by the  
capable Morton Found, the sixty-  
five members definitely can look  
back on a record of achievement,  
and in their brief existence, there  
is little doubt but that their idea  
of general betterment of the commu-  
nity has been made a reality.

At the present time the Club is  
working on one of their biggest  
venture to date, this being a May-  
time Dance and Fashion Show,  
which is to be held in the El Mor-  
oco on May 6th.

A really large evening is being  
planned, and the members of the  
Club are making every effort to  
make this event one of the high-  
lights of the year. Doing things up  
in a big way, the Club not only  
have procured the use of the El  
Moroco, one of the top dance spots  
of the district, but also have signed  
Jack Ryan and his thirteen-piece  
orchestra for the occasion. How-  
ever the feature of the event is  
likely to be the Fashion Show,  
which Edgecombe Ltd. are putting  
on. This fashion show recently  
drew over six hundred at Burlington,  
and reports from that show  
say that Edgecombe really did a  
marvellous job of presenting a real  
big time showing of the latest  
creations.

The informal dance will, of  
course, be complete with prizes galore,  
as well as refreshments and all the trimmings that will guarantee  
those attending a never-to-be-forgotten evening.

The Independent congratulates  
this Winona Men's Club and wish  
for them continued success in their  
ventures for the improvement of the  
district from which they have

in respect to Health Unit quarters  
in Beamsville.

The "extension" referred to in  
the resolution was in reference to a  
letter written by Dr. Currey to  
Council. D. Currey said that the  
Unit was well-organized now and  
certain additions to its work were  
being contemplated. He wanted to  
attend a meeting of Council in the  
near future to discuss these additional  
services proposed by the Unit.

The reading of the letter brought  
forth expressions of anger from the  
Councillors. "Why," they asked,  
"does the unit have the discourtesy  
to present a proposal such as  
this when they haven't even re-  
plied to the visit of several coun-  
cillors to a recent Board meeting  
with regard to the taking over of  
an office in the new Fire Hall?"

(At the time of the above meeting,  
the Board of the Health Unit pro-  
mised to take action on the matter  
as it is understood, appointed  
two representatives to visit Beam-  
sville for that purpose. Council of-  
fered the use of space in the Hall  
to Dr. Currey late last year, in re-  
sponse to his request, but the Unit  
has not yet taken action to occupy  
the space at the rent laid down.)

Councillor Tufford said he didn't  
want to meet Dr. Currey until the  
office question had been cleared up.  
If the Health Unit head visited  
Council, Councillor Tufford said he  
wouldn't attend the meeting.

**BEAMSVILLE COUNCIL**  
see no reason why we the council  
should meet Dr. Currey re extension  
until such time as we the  
council should hear from the board

## NEW ACCOUNT BOOK FOR THE FARMER

Recently one of the dailies fea-  
tured a story of a man standing on  
a busy street corner and offering  
to sell \$10.00 bills for \$1.00. He  
made very few sales because the  
passers-by were suspicious. We  
can imagine their chagrin on reading  
the newspaper account and learning  
that the bills were genuine.

The new farm account book is  
like that \$10.00 bill—it is genuine.  
It's value has already been attested  
to by many leading farm organiza-  
tions and farmers. It was de-  
signed by the Department of National  
Revenue in a sincere effort  
to help farmers. To save them time  
trouble and worry. There are no  
strings attached. The account book  
is free for the asking. By using it  
the farmer in no conceivable way  
obligates himself any more than if  
he had never seen or used a copy  
at all.

First and foremost, it provides  
farmers with a simple book-keep-  
ing system. A few minutes each  
week will enable him to keep ac-  
curate records. These records will  
show him exactly where he stands,  
what progress his farm is making,  
where he is making or losing  
money. These records in the farm  
account book are numbered to cor-  
respond exactly with the T-1 tax  
form. In April next year when the  
farmer makes out his tax return  
for the year 1948 all he need do is  
transfer the totals from his ac-  
count book directly to the form. He  
eliminates the need for and saves  
himself the cost of expert help.

Equally important to the farmer  
the farm account book shows him  
deductions he can make for ex-  
penses and for depreciation. How  
much, for example, he can deduct  
for depreciation on a barn, tractor  
or anyone of the 75 different items  
of common farm equipment. Ad-  
ditional advantageous features ex-  
plained in the farm account book  
are the three year Average Plan  
and the Basic Herd. Both are op-  
tional. The farmer can use them  
or not, as he sees fit. In many in-  
stances it will be to his personal  
advantage to do so and the farm  
account shows him how.

In brief, the farm account book  
and Income Tax Guide has been  
designed in spirit of fair play to  
help the farmer and give to him  
all the benefits to which he is en-  
titled by law. He has nothing to  
lose and everything to gain by  
giving it a fair trial. In the words  
of the Hon. J. J. McCann, M.D., the  
Minister of National Revenue:  
"Our farmers are the mainstay of  
our prosperity and when we help  
them we help every citizen in the  
land."

Some men will admit they were  
wrong while you have to prove it  
on others.

The average man has a hope  
chest, too. He hopes to keep a cold  
off of it this winter.

Mr. and Mrs. A. Lekie opened  
their home on Friday night, for a  
euchre party under the auspices of  
the W.A. of St. George's Anglican  
Church, Tapleytown, a spon-  
soring a Three Act Comedy play  
entitled, "Look Out, Lizzie!" pre-  
sented by members of the W.A. of  
Fulton United Church, in the W.I.  
Hall, Vinemount, Thursday night,  
at 8:15.

A branch library of the Salt-  
fleet Main Library has been opened  
at the home of Mrs. Ernest  
Tweedie, where a fine collection of  
all types of good reading has been  
installed, and an invitation is ex-  
tended to young and old to visit  
the branch and acquaint them-  
selves with the service the Free  
Library has to offer in education  
and pleasure.

**GAULTON-MUNCH**  
The Rev. G. E. Morow, Winona,  
officiated at the wedding, April  
10th, when Alice May, daughter of  
the late Thomas Kinch and Mrs.  
Kinch of Vinemount, became the  
bride of Mr. Percy Gaulton, Ham-  
ilton. Given in marriage by her  
brother, Charlie, the bride wore a  
white satin dress, floor length,  
with long veil and carried red  
roses. Her only attendant was her  
niece Dorothy May Kinch, gowned  
in pale blue satin, and her bouquet  
was pink roses. Mr. Wm. Gaulton,  
brother of the groom was best  
man. Miss Dorothy told, Hamilton,  
played the wedding music, and the  
ushers were Wm. Hunter and Edward  
Gaulton, Hamilton. Mrs. Robert  
Rafferty, sister of the bride and  
Mrs. Charles Kinch, received the  
50 guests at the Women's Institute  
Hall where the wedding reception  
was held. The church and hall were  
beautifully decorated by Mr.  
Stuart Jeffries and Mrs. Elsie  
Wilson, assisting. The bride and  
groom left on a short honeymoon,  
the bride travelling in steel blue  
ensemble with black accessories.

Job had patience but maybe he  
never had all of his aims to ravel  
around the neck.

There seems to be plenty of all  
kinds of green in the spring except  
the long green.

### Millyard's QUESTION BIRD

What is better than tons of money?  
O.E.

Answer:-  
A few pounds of good solid health!

It is very much better that you should be worth your weight in health than in gold. A little forethought and care—the experience of your physician—the skill of your druggist... can help you protect health.

#### LOAN CUPBOARD

Churches of Stoney Creek, Fruitland, Winona, Grimsby, Kerr, Tapleytown and Smithville. It will give our young people an opportunity to meet informally Mr. Gordon Geiger and the other students who are preaching in this immediate area and to discuss with them Christian Stewardship as it affects the choice of one's vocation.

Your local branch is pleased to announce that they have acquired a **W.H.E. CHAIR**. This chair is collapsible, will fit into a very small space—and resembles a folding veranda chair, with arms and foot rests. There are rubber handles for pushing the chair, or it can be self-propelled, as it is very light weight.

If you want the use of the chair, please have your doctor's office call Miss Crane at 527, or Mrs. Miliard at 111.

### TRINITY CHURCH NEWS

The services this coming Sunday merit the attendance of the entire congregation. In the morning the preacher will be Mr. Gordon Geiger, B.A., of Emmanuel College, Toronto. On this particular Sunday several pulpits in the Hamilton Presbytery are being occupied by members of the graduating class of Emmanuel College. The purpose of this is to present to the people of our Churches the young men who this year will complete their theological training and become ordained ministers of the United Church of Canada. It is also hoped that their example will inspire other young men and parents who have sons to consider seriously the Christian ministry as a life's calling.

In the evening Mr. Griffith and the choir are exchanging with the minister and choir of Livingston United Church, Hamilton. Rev. James C. Eastcott of Livingston Church is one of the very active ministers in this area. He is a past Chairman of the Hamilton Presbytery and presently the Vice-President of the Hamilton Council of Churches. It is hoped that many of our folk will be present to hear his stirring message and the fine work of his organist and choir.

The regular Young Adult Club meetings following the evening service have been withdrawn in order that member and all young people of the congregation may attend the District Youth Fireside Meeting in Winona United Church. Represented at this gathering will be the

Lincoln County convention will be held in the United church, Cainsville, on Wednesday, June 2.

### TRINITY SERVICE CLUB

There was an excellent turnout when the members of Trinity Service Club entertained their husbands at a pot-luck supper in Trinity Hall. The social committee under the chairmanship of Mrs. Erwin Phelps arranged the tables.

After supper, games, conducted by Mrs. Robert Gibson, were held to the accompaniment of Kenneth Baxter at the piano. Harold Jarvis sang several times and a short comedy, "Without References," was given by Mrs. Gordon Cole, Mrs. Reginald Cloughley and Mrs. John Aikens.

The surprise of the evening was the rhythm band conducted by Harold Jarvis accompanied by Kenneth Baxter at the piano and played by Messrs. Harry Wilson, M. E. Johnson, L. A. Bromley, Russell Terry, Earle Cornwell, Roland Merritt, Norman Bowes, H. V. Betzner, Earle Marsh, Erwin Phelps and C. D. Miliard.

The players were dressed as children or grades three and four and their antics brought down the house. William Hewson gave his hat trick and the audience responded equally as well.

### West Lincoln Memorial Hospital

B. H. SCOTT, Secretary,  
Grimsby Beach, Ont.,  
April 14th, 1948.

The President and Directors wish to take this opportunity to convey their sincere and grateful thanks to the following members of our community who took part in the recent drive to raise funds for the re-building of the West Lincoln Memorial Hospital. You voluntarily and willingly gave much of your valuable time and best efforts to bring success to a very worthy project. Your work was well done and very successful—resulting in the raising of a substantial sum and sufficient to justify the commencement of building operations as soon as satisfactory arrangements have been decided upon.

We realize that soliciting funds is not always a pleasant task—even in a worthy cause—but, as years go on, we feel you will have reason to look back with pride to the part you played to establish this institution for community service.

A. R. GLOBE, President.

"April  
Showers"  
FROLIC  
... BY ...  
Club 13  
BEAMSVILLE HIGH SCHOOL AUDITORIUM  
FRIDAY, APRIL 16

This is the week for Club 13's April Showers Dance, and we hope to see all you people who have been with us before, as well as host of new friends.

We kinda think you'll like this dance. The hall will be decked out in truly springtime dress, and as for music . . . well, again we take pleasure in bringing you.

Phil Gage

his piano and orchestra and featuring

Vern Scott

Locking forward to seeing you on Friday night, down at the Beamsville High School Auditorium . . . it's your spring date with Club 13, the club that leads the dance parade in West Lincoln.

Job had patience, but of course he never tried to get any ice cubes out of the refrigerator tray.

## GOINGS — COMINGS — DOINGS

AT

## Grimsby Beach

MISS MAY CRITTENDEN,  
Resident Staff Correspondent.  
Telephone Your News Items To Her.

Mrs. W. J. Bidwell is visiting in New York for a short time.

Mr. B. Lonsaway visited his mother and brother in Dundalk on Sunday.

Mr. George Jarrett spent a few days in Whitby last week visiting relatives.

Mr. and Mrs. Fred Jewson and Miss Phyllis Garland spent Sunday in Toronto visiting with Have-lock Jewson.

Mrs. Jack Hagar and Mrs. Artie Clarke spent a few days in Ottawa attending the Eastern Star Reception.

Miss Mabel Hunter has returned from Hamilton where she has spent the winter, to her cottage at the lake front.

Mrs. S. Coyne, who has been visiting her sister, Mrs. W. J. Bidwell, has returned to her home in Scarsdale, N.Y.

Mr. George Wilcox spent the weekend in Toronto. Mrs. Wilcox returned after visiting a week with Mr. and Mrs. Lorne Wilcox.

Mr. and Mrs. Al. Todd and Dorothy Todd have returned from their trip to Cleveland and are leaving this week for their camp on the French River for the summer.

Weekend guests of the home of Mr. and Mrs. C. W. Riches were Mr. and Mrs. R. S. McMurdo, Mr. Donald Barclay and Miss Myrtle Fenton from Toronto, and Mr. and Mrs. Bert Smith from Montreal.

St. John's W.M.S.

The Women's Missionary Society of St. John's Church met last Thursday for their Thank-offering service, with Mrs. H. J. Scott of Beamsville as guest speaker.

The meeting was opened by the president, Mrs. W. J. Burke, and the scripture lesson read by Mrs. Jas. Wray.

Mrs. Scott gave a very interesting talk on Newfoundland, where she and her husband, Rev. Mr. Scott, had charge of the Presbyterian Church at Grand Falls for nine years.

Mrs. W. H. Morris moved a vote of thanks to Mrs. Scott, and a solo by Mrs. Lester Larsen was greatly appreciated by the members.

The meeting closed with the Lord's Prayer in unison, and refreshments were served in the church room by the committee in charge.

## BAPTIST CHURCH

The many favorable comments of the Easter illustrated service have encouraged the Baptist Church to present another similar service before daylight saving time comes into force.

Sunday evening, April 18th, the entire service with the exception of the scripture lesson and prayers will be presented on the screen.

The hymns will be illustrated with a different slide for each verse.

The solo "The Holy City," will be rendered by Mrs. Arthur Parker, Winona, and will be illustrated with twelve beautiful views.

The picture sermon will be the story of "The Prodigal" and will be illustrated with sixteen slides.

These slides are all colored and are taken from the finest paintings.

The pictures are all still pictures and are pleasant and restful on the eyes of those who see them.

## Eastern Star

Mrs. Marjorie Hitchman, Grand Chaplain of Ontario, Order of the Eastern Star, spent the weekend at the Lord Elgin Hotel in Ottawa, to attend several functions honouring the grand officers of Ontario.

A reception and dinner dance was held Saturday evening, April 10th, in the Masonic Hall. Special sacred service was conducted in Erskine Presbyterian Church on Sunday evening, followed by a tea and reception. On Monday noon a luncheon was given in the Quebec suite at Chateau Laurier by Mrs. J. W. Linehan in honour of Grand Chapter officers and out of town guests.

Included in the party accompanying Mrs. Hitchman were Mrs. Emma Campaigne of Hamilton, Grand Conductress; Miss Margaret Bell, Hamilton, Grand Marshal; Mrs. Arthur Clark and Mrs. J. R. Hagar, of Grimsby; Mrs. J. C. Edmunds, Hagersville.

Job had patience, but of course he never tried to get any ice cubes out of the refrigerator tray.

## Births

McBRIE—To Mr. and Mrs. Ronald (Buss) McBride on April 8th, at St. Michael's Hospital, Toronto, a daughter.

WILCOX—Mr. and Mrs. Earl Wilcox, Grimsby Beach, (formerly Marion Misener, Chezzetcook, N.S.) are happy to announce the birth of a daughter, Marilyn Evelyn, on April 11th.

## Rebekah Lodge

Sister Mabel Warner, N.G., presided at the regular meeting of Alexa Rebekah Lodge on Tuesday evening.

A very successful degree rehearsal was exemplified under the leadership of Sis. Gladys LePage, Captain. On Wednesday evening, April 14th 45 members journeyed to Niagara Falls where Alexa Degree Staff conferred the Rebekah Degree on a class of candidates at Bluebell Lodge.

## GOLDEN WEDDING

Mr. and Mrs. Andrew Johnson (the former Margaret Elizabeth Barclay) celebrated their golden wedding anniversary at their home in Binbrook, where they received their friends and relatives on Tuesday. They were married on April 13, 1898, by the Rev. W. P. Walker, at the home of the bride's parents. The groom's brother, Emeron Johnson, now of Caledonia, was best man. Both natives of the Binbrook area, they were brought up on adjoining farms. They have two sons and two daughters, Harry Johnson, at home; Mel A. Johnson, of Grimsby; Marjory (Mrs. Robert Moody), of New York, and Winnifred (Mrs. Alex Ashmore), of Auburn N.Y.; also two grandchildren.

Here are the cubs who "did their best": Skipping—Bill Dancer, Donny Clements, Harry Dancer, Harry Astle, Doug Young, Stan Pyett, Bill Lipsitt. Book Balancing: Donny Shumera. Union Jack: Bill Jackson.

After instructions on Health to the pack by Akela, a lively game reduced their energy so that they could sit quietly and listen to Akela tell them of our outside meeting place, and hints of an overnight camp for the cubs with at least one "eye open."

MOTHERS' CLUB meeting will be held on Wednesday evening, April 21st, at the home of Mrs. Jas. Durham, 120 Livingston Ave.

The BEAVER CLUB will hold its annual Spring Tea Thursday, April 22nd, at the home of Mrs. Richard Shafer, 16 Mountain St., from 3:00 to 5:30. Everyone welcome. Tables of Home-Baking and Fancy Work.

## BATTERY REUNION

The 41st Battery Association was formed at a reunion at Simcoe over the weekend, David McArthur of Simcoe, being elected president; Duncan Young, Simcoe, secretary, and Al Robb, Simcoe, treasurer. Lt.-Col. J. A. Munro, M.C., padre of the battery overseas, was named honorary president.

The reunion was featured by a banquet in the junior farmer building on Saturday night and a service in the Strand Theatre Sunday afternoon.

Attending the affair from this district were Edrie Lockhart, Donald Lockhart and Harry Shardlow, of St. Catharines; Ralph Brown of Beamsville, and Clifford McCartney, Grimsby, who motored to Simcoe on Saturday evening.

## WOLF CUB PACK

Graeme McIntosh was awarded his First Star for finishing the first eight steps of Cub life. Akela demonstrated the large arm sling and the cubs practised it in their corners during Brownies period. The Brown Six came out on top in the competition for the night.

Mowgli took a class in telling time while Raksha looked after the games.

Lyn Cooper passed his test on Tasks, Ward Cornwell in Compass; Graeme McIntosh, Compass and Toymakers tests; Donald Roberts re-passed his First Aider badge.

Songs and a story around the campfire completed the evening.

During the Easter holiday a successful hike was held. Near perfect weather greeted the chosen day as the twenty cubs set out. The trail led up to Woolverton mountain and then off the road a short way. Most unfortunate was the plight of one cub, who, coming late followed the trail to within a hundred yards of the camp and not being able to follow it further had to return home.

A game of Follow the String Trail gave the cubs plenty of chances to test their observation and at this Derry Halls certainly shone.

As always though, dinner on the hike was the highlight of the day.

A small town is the one where they are always having a discussion as to whether or not to ban hog pens in the city limits.

## WOMAN INJURED

Mr. and Mrs. Robert H. Forsythe, North Grimsby, were badly shaken up on Friday last when their car was involved in collision with a truck, owned by Quigley Construction Company, Barfootville, and driven by Woodrow Keyes, at the Hunter's sideroad-Barton road intersection.

Mrs. Forsythe was attended at

the scene by Dr. A. F. McIntyre and later removed to her home suffering severe bruises and shock. Mr. Forsythe, rural mail deliveryman, was on his daily rounds when the accident occurred. Provincial Constable E. G. Hope investigated.

Robinson Crusoe should have been happy on that island. He didn't have to worry about someone dropping an atom bomb on the place.

# SPORTOLOGY

(By Bones Livingston, Sportologist)

**BATTER UP**—What are we to have in the line of a softball team this summer? To date we could not scrap together even a remote hint of what, where, who or when baseball or softball will get underway.

With a grandstand to be constructed at the Public School diamond, it would appear as if local teams will get considerably more support than in the past.

Perhaps by the first of May something by way of organization will be underway. Personally we should like to see at least three teams in operation this summer. There is little doubt that we have the material here for three teams.

As far as baseball goes it's a toss up whether or not baseball will get the support it deserves. Seems as though softball is the game to-day.

While we're at it, wonder why we couldn't have a girls' team. The girls' leagues in Toronto and other centres are really thriving, and we certainly should be able to pick up a team of girls from this district.

**THEY ARE NEARING THE END**—The bowling trail is coming to a roaring conclusion, with some better than average scores being turned in. Ham Fox led his Rockets to victory in the first group, and copped the trophy rather handily from the Pin Twister aggregation.

The Rockets hit four figures in each one of their four games, rolling 1202 in the first, for their best effort, followed by scores of 1071, 1063 and 1127. The team consists of Ham Fox, R. Shuert, F. Sims, Jerry McGregor, Terry Jeffries and G. DeQuetteville.

Fox led his team with a four game aggregate of 1074, with Jerry McGregor in second spot with 932. Shuert with 897 and Sims in fourth spot with 862.

Pin Twisters best effort was a 985 score, however, they fell short in all four games, and gave the Rockets little trouble.

In the second group, the Peach Kings took three straight from Sheet Metal, winning by 307 pins. The Kings total for three games was 3049, while the Sheet Metal boys racked up a lowly 2742. The Kings team consists of J. Hewitt, H. Groff, M. Fisher, G. Kannacher and E. Fisher.

The Mountaineers defeated the East End although it took the full five games to eliminate them. Mountaineers dropped the first tilt, walked away with the second, lost out by 83 pins in the third, swamped the East Enders in the fourth, and came through to win the fifth game by 122 pins.

P. Kanski, T. Metcalfe, A. Inglehart, G. Metcalfe, W. Keltner, and N. McDougall are the members of the Mountaineers squad.

The Peach Kings and the Mountaineers will now meet in the final of this group commencing at 9 p.m. on Monday, April 19th.

**FISHERMAN'S FLY**  
a nine foot fly rod, weight about five ounces, with a lure artificially constructed, with only the fisherman's ability to fool the fish with the action. When the strike comes darting from swirling white foam, man is pitted against fish. The slender cane rod bends from its minute tip to its slightly heavier grip, and the battle rages. This is the thrill to the fly fisherman. No sudden yank over the shoulder to leave the fish successfully landed.

With this type of equipment, all depends on the skill and artistry of the man, who must always keep foremost in his mind that in his hands is a precision instrument, a delicate Tonkin cane rod, which to the novice would appear as a useless article with which to fish. But to the true sportsman, a couple of minutes of play with an action packed fly rod pitted against an equally action packed fish, is all that he requires to make his fishing trip a success.

Carefully he plays the darting prey, and even in the heat of the battle, the sportsman takes time to judge the action, the flexibility, and the effectiveness of his rod.

It is then, that we come to the purpose of this story, for behind this scene, lies a story of the craftsmen who turn out the delicate, yet powerful Tonkin cane flyrod.

Few people realize that right here in the town of Grimsby, lives one of the few experts on the North American continent, a craftsman skilled in the making of this type of equipment.

Yes, we are speaking of Doug Scott, who in just two years has become recognized as perhaps the man in his field in Canada. Coming out of the service, Doug Scott started up his business in January, 1946, and has had considerable success, not only in the construction of fly rods, but also repairing to the complete satisfaction of those sportsmen, whose rods have been damaged from carelessness or from hard usage.

Now with a staff of eight, Doug Scott continues to construct various types of rods, some a standard variety, while others are custom-made efforts, over which hours and hours have been spent by Scott personally, so that the finished product will be to the owner a precision instrument and thing of beauty.

It is not unusual for the plant to have over a thousand dollars worth of rods in for repair in a single week, and every one of these rods receives personal attention, so that when it is returned to the anxious owner, it again is an instrument which he will covet and respect.

So many matters have to be taken into consideration in the turning out of a fly rod, that it is impossible for anything resembling an assembly line to exist in the Scott plant.

The process and putting together of a three-piece four or five ounce rod is a painstaking effort, and starts with the scraping of the Tonkin cane to approximately five thousandths of an inch. The bamboo is straightened over dry heat, and not with steam as is the popular belief. Spanish cork of which the butt is constructed is then mounted, and later on the grip is formed to anyone of a number of specifications. The middle and tip sections of the rod are then turned out, ferrules are placed (usually five) and cemented with a special cement which Scott perfected himself. A special highly resistant magnetic tip top is then mounted.

The rod now goes to the winding room, where girls' expert fingers wind on the line guides with brilliant silk or nylon threads. The amount of silk winding used determines to a great extent what action the rod will receive. Each rod has its own number of winds, placed in a specified fashion. The tip section is usually the action part of any good fly rod, and this action is brought out by expert testing of the action, with winds placed accordingly.

Shellac, lacquer and varnish are applied at various stages, with thirty-six hours in between coats, under controlled heat. The final appearance of a Scott flyrod appears as though dipped in liquid tutton and countless other items are checked and re-checked, before the truly beautiful rod is passed and ready for shipment in its aluminum case to points in Canada ranging from Victoria, B.C., to Prince Edward Island.

Truly the work of a skilled craftsman, a flyrod is a thing of true beauty and an instrument treasured by ardent fly fishermen the world over. The care and exacting precision with which they are turned out is a definite science, and a job that only a very few men have successfully mastered.

Recognition in the field comes only through diligent and careful workmanship. Recently Doug Scott received a tribute to his knowledge of the delicate flyrod, when the Robert Simpson Company of Toronto, commenced sending their work to his plant. This company who of necessity maintains an extensive

sports shop, realize that the repairing of a valuable flyrod requires an expert's attention and skill, and so now Scott finds himself deluged with work from this large firm, whose customers must be satisfied, when they bring in a rod damaged or in need of repair.

An example of the equipment used by the connoisseur of fly fishing is the recent eight hundred dollars worth of equipment owned by the Hon. George Dunbar, Minister of Municipal Affairs, and which is now in the hands of Scott for repair and refinishing.

That the Minister will be satisfied when his equipment is returned is a certainty, for it has been and will continue to be the motto of Scott that flyrods are precision instruments, and as such, he will turn out an instrument perfect in every respect, with action packed into every inch of its apparent fragile construction.

**NEW REGULATIONS**  
the auditorium on April 18th to raise funds for West Lincoln Memorial Hospital was granted.

Permission was granted Grimsby Lions Club to erect a grandstand on the Public school grounds, this to become property of the board when erected.

Donald Awde, high school principal, reported that 14 boys persons as now attending the classes on Canadianization. The classes he reported, would be held to the end of June and would be resumed next fall.

## COUNCILLORS INSPECT

Mayor Bull has advocated from the start that the new plot of ground, that will be to be purchased, should not be smaller than 10 acres, although it would not be necessary to landscape the whole plot this year.

As conditions now stand it is only a matter of a year until there will not be a grave available for sale purposes, therefore at least half of the new extension will have to be laid out and landscaped this year so as to be ready for sale of lots or single graves a year hence.

The man who looks forward to summer, is the one who doesn't intend taking the family on a picnic.

Job had patience, but, of course, he never was concerned about the veto power of Russia.

**LINCOLN HEALTH**  
2. A week later the baby is vaccinated against smallpox.  
3. One month later the second dose of combined material is given. If the vaccination against smallpox has been successful a certificate should be received by the mother at this visit.

4. In another month the third dose of combined material is received. At this time a certificate for this should be received.

5. A reinforcing dose of diphtheria toxoid and whooping cough vaccine is given one year after the original doses.

6. Just before commencing school a further reinforcing dose of the combined material is used, as well as a reinforcing dose of vaccine for protection against smallpox. Certificates for these reinforcing doses should be received.

N.B. It should be remembered that protection against diphtheria and whooping cough may not be established for some months after the immunizations are completed.

This is given each mother the first time she brings a baby to any clinic for immunization.

**TOWN COUNCIL**  
with buildings, had a valuation of at least \$100,000." Bonham said a previous assessor had told him it was the accepted practice in Grimsby to under-assess industrial and business places for fear of driving them out.

Reeve John Hewitt described the assessment in question as "a disgrace," while Councillor James Braid called it "a crime," and Deputy Reeve A. C. Price said, "This is certainly news to me."

Reversing its former policy, council unanimously voted "that all town-owned properties be offered for sale to any and all interested persons, purchase price on all lots to be determined by council to best interests of the town, and any buildings erected on these properties must meet all building requirements."

A deputation from the recently re-organized Chamber of Commerce asked financial assistance in paying for an advertisement in a magazine to be distributed at the International Industries Fair, in Toronto, and was granted \$100. The deputation, stressing that it was the Chamber's desire to assist in anything for the betterment of the community, urged that town planning board be established with a view to instituting town planning here.

Bus stops and parking problems were discussed at length and it was finally decided that efforts should be made to have both east and westbound buses stop farther away from the Depot Street corner than at present.

Reporting that Chief Constable William Turner has, on several recent occasions, been on duty 24 hours a day, Councillor James Braid, chairman of the police committee, suggested that a third constable be appointed. He received no support, however, council taking the attitude that the town could not afford the additional expense.

Acting on a written complaint, council will make an effort to abate smoke nuisance from the Oak Street distillery.

Dogs running at large and the collection of dog taxes are again on the agenda. Council agreed that the dogs should be kept under reasonable control.

A building lot on the lake front on the Fairview survey was sold to Miss Marguerite Farrell for \$50.

Council will meet on Friday evening, April 30th, as a Court of Revision on the assessment and by-law pertaining to the debentures to be issued for the construction work on the Aitchison survey and on Gibson avenue.

Earl J. Marsh appeared before Council requesting that road work be done as soon as possible on Melrose and Roslyn Avenues.

Council were of the opinion that Supt. of Works Lawrie should attend all council meetings so that information regarding town matters could be secured from him.

Councillor Bonham wanted council to take some action regarding truckers driving heavy loads on Maple Avenue with the result that the roadway is being rapidly broken up to pieces.

Fred Mason was granted permission to move his house from its present location to another nearby location.

General voucher account for \$3,145 were ordered paid.

It was decided that in order that town work can be done more rapidly and efficiently that Supt. of Works Lawrie be allowed to hire outside truckers instead of trying to do all the work with the present town equipment.

A report from Waterworks Supt. Henderson stated that all fire hydrants had been flushed and were in good working order.

Mayor Bull again brought up the question of purchasing land for a new addition to Queen's Lawn cemetery but no action was taken by council.

Council will purchase 500 trees of various types from the government nurseries for planting on the town's reforestation lot.

**TOWNSHIP SIDEWALKS**  
North Grimsby. Does that help us?"

"I see what you mean," replied Mr. Ecker.

A motion that was handed to Reeve Nelles, but which was never read, prompted Nelles to say, "In my estimation, it's too little."

A second motion was drafted by Aiken and McNiven and was eventually put through. The grant was for \$50.00, "providing they hold a

Mr. Ecker again told Council that he would see that all members of Council would receive free passes to this year's Smithville Fair. During the debate, mention was made of the fact that the sum of \$100 had been granted to the Clinton-Louth Agricultural Society by North Grimsby.

Reeve Nelles then opened up a new trend of thought, by asking, "What are we going to do about these sidewalks all over the Township?"

Said Councillor Bartlett, "Fix them."

That sidewalks are in a bad state in many places was agreed by the entire Council, and Councillor Mitchell stated that much of the damage had been done by trucks and farm machinery being driven over the sidewalks.

"We'll never get anywhere until some truck owner is brought up for this," was Mitchell's observation.

After considerable debate, a motion was issued by Mitchell and Bartlett, and which authorizes the road superintendent and Reeve to inspect and repair all sidewalks, and that the clerk write the local office of the Department of Highways re removal of all road debris from the sidewalks along No. 8 Highway.

Further action was taken on the sidewalk problem, especially pertaining to the abuse of the walks by truck drivers and farm machinery. A motion by McNiven and Aiken read, "That the Clerk advertise the following: That all persons occupying lands served by township sidewalks, are hereby notified that the use of sidewalks by tractors, implements and trucks is prohibited, except at proper crossings, and that any person damaging the sidewalk by the use of heavy equipment crossing, turning or other means, will be liable for the repair of the sidewalk."

Watson McPherson and Frank McPhail of the Grimsby Chamber of Commerce, appeared before Council, and asked for assistance for advertising purposes at the World Trade Fair scheduled for Toronto in the near future. The C. of C. plan on running a two page advertisement in the official organ of the Fair, in which Grimsby will be outlined as a prospective manufacturing site.

Said Mr. McPherson, "We expect that this town is going to grow. And if we can interest even one manufacturer in the possibilities of this area, then this is a step in the right direction."

Council voiced no disapproval of the idea, and a grant of \$50.00 was ultimately granted to the C. of C.

Stated Deputy- Reeve Aiken, "I'm glad to see the Chamber is working on something other than closing stores early. The early closing is making it pretty tough on the farmers."

Other business was presented and acted upon with unusual rapidity. A notice of motion was read stating that at the next meeting of Council a motion would be presented to appoint a special constable for the Beamer Memorial Park and other duties.

H. R. Dowie was appointed assessor for 1948 at a salary of \$450.00. Mr. Dowie could not be reached by telephone to ascertain whether or not he would accept the Council's offer.

Other motions passed included one which reads, "That the Township open a special account with the Canadian Bank of Commerce, to be called Water Main Construction Local Improvement Account No. 1, and to borrow on such account a sum or sums not exceeding in the aggregate the sum of \$5,074.38." McNiven and Bartlett.

A final motion by Aiken and McNiven read, "That the Construction Account in the Bank of Commerce, for West End extension, be closed and balance \$1,214.94 be credited to West End Water Account, and that the West End Water Account repay the Township General Account, advances made during the past several years totalling \$1,710.51.

A final motion by Bartlett and Aiken caused considerable controversy. However, the motion was passed, and in future Joint Fire meetings will be considered a special meeting, and that Council members attending will be paid a regular rate.

Middle age is that period in life when a fellow puts off many things hoping he will have more energy then.

Robinson Crusoe should have been content on that island. He didn't have to bother about a Communist plot.

PHONE 71, GRIMSBY

5 MOUNTAIN ST.

(By PEG 'N LYNN)

Hurrah for the gals! The Leap Year Dance was a whopping success. The hall was decorated for the occasion with man traps and ball 'n' chains. A capacity crowd enjoyed (?) the cokes, do-nuts and the "M. C. C'ing"—good going, Bernie! We were glad to see so many new faces and hope that the school spirit inspired by this dance will continue throughout the coming months. The executive is planning a big dance for the 30th of the month. We want your support. You had fun on Friday, didn't you?

The school magazine is slowly progressing. It has been decided to continue calling it "Studemus." If you have any literary aspirations (or even if you haven't) start writing, and turn the results in to your committee.

If you want to see some future athletes, come to our playing field any time after four. Wonder who the "bounding boy" in gray is, and what he's conditioning for?

Sports—The friendly Grimsby teams invited the Beamsville teams for return games Monday night. Here's the results.

Junior game—1st Quarter.

Beamsville opened the scoring early in the game. Grimsby soon tied it with a basket by Nancy Morton. Beamsville scored again making it 4-2 at the end of the quarter. Comments—"heck of a game."

2nd Quarter.

"Dilly" finally sunk the only basket after a fairly even scramble.

Score 4-4.

3rd Quarter.  
One basket for both teams. Score 6-6.

4th Quarter.

A. Klowak scored 2 baskets in quick succession pulling the home team ahead. Alibina was the spark of the team and succeeded in scoring again, making the final score 12-6 for G.H.S.

Senior Game

1st Quarter.  
Grimsby opened the scoring with a basket and a foul shot. The fast flying Grimsby girls soon tallied again. Beamsville finally sunk one, making the score at the end of the quarter 6-2 for Grimsby.

2nd Quarter.  
"Dilly" added 2 more, then Shirley scored again. Beamsville sunk 2 baskets. Score 10-6 for G.H.S.

3rd Quarter.

Beamsville opening scoring with 3 baskets and a point from Millard's foul. Mary S. scored for Grimsby leaving the score at three quarter time 15-12 for B.H.V.S.

4th Quarter.

Grimsby made good two fouls in this quarter. Beamsville tallied 2 baskets, and the final score—19-14 for B.H.V.S.

Joe Of The Week  
Mr. Aude—What is the fastest moving animal in the world?" (A meek voice from the back of the room)—"A wolf."

### WHY PAY A DOLLAR?

Q. Why should people join the Cancer Society?

A. To help fight cancer, with knowledge. Members of the Society help everybody to become better informed on the symptoms and treatment of cancer. Through facts obtained by becoming a member, a person may be instrumental in saving the life of a loved one, a friend, or even himself.

Q. How is the Ontario Branch Canadian Cancer Society FINANCED?

A. It is supported only by proceeds from annual membership fees and by public funds collected in the 1946 campaign in co-operation with the Ontario Cancer Treatment and Research Foundation.

Q. How are funds from membership fees used?

A. (1) Transportation of cancer patients to clinics.

(2) Provision of cancer dressings free of charge to patients being nursed at home.

(3) Provision of beds for indigent patients requiring treatment, but not hospitalization.

(4) Production and distribution of pamphlets, films and displays giving facts about cancer and advantages of early treatment.

(5) From the 1948 membership drive, the Ontario Branch hopes to be able to extend its services to include provision of nursing home accommodation for terminal cases or treatment cases outside of clinic points during the treatment period.

Winter is that period when a person puts away his sun glasses for a sun lamp.

Always use a cutting board when shredding or cutting vegetables or slicing fruit on the drain-board or sink to avoid chipping the enamel.

### Boy Scouts

With the coming of spring, scouting should be on the upgrade. Although activities keep going throughout the winter, there is little doubt but what scouting is an outdoor game, and from now on until winter again sets in, Troop or Patrol hikes should be a regular feature of the scouting activities.

Then of course it is not too soon to start planning the summer camp. The Boy Scout motto of "Be Prepared" is a wise thought to keep in mind. A camp site should be picked out well in advance, and along with this, a Troop would be wise to start building up their camping equipment.

It is a well established fact that two weeks at a Boy Scout Camp gives the Scoutmaster his greatest opportunity. More can be accomplished in the two week camp period than can be accomplished in many months of instruction in the city or town. This, of course, providing the Scoutmaster spends considerable time drafting out a program well stocked with instruction periods of all types, plus a regular period for fun and relaxation.

A leader should always keep in mind that the summer camp is a part of the Scout's holidays. It should provide for plenty of fun and relaxation, bearing in mind that Scouting is a game, best taught through games, and in this way it is not hard to combine training with fun.

Did you know that in Brantford, Ontario, one of Canada's outstanding Cub Packs is that at the school for the Blind. All twenty-six boys are sightless, but despite their handicap they have an excellent Wolf Cub Pack.

This Does Happen

This a letter from a 14 year old Scout, and addressed to the editor of a scouting magazine. If you are losing Scouts in your Troop, perhaps this letter will explain the reason why.

I have just read in a recent edition of "Scouting" the statements by some boys, telling why they dropped out of the Scout movement. Well, I'm hardly surprised. My Troop had had only one Troop-sponsored outing in the past two years, with the exception of a trip to a nearby park last summer—a trip that was a flop.

In the past two years we have had four Scoutmasters. There has never been one Committee man attending a Troop meeting until last week.

"This has been the main trouble with our Troop—no men and no camps. I leave it to you to decide whether this is Scouting.

"I am still a Scout, fourteen years old, and I wish I could get some Scouting before I go out."

An observation by B. P. said: "Want of adventure brought the boy in; lack of adventure took him out."

### DISCUSS EXTENSION TO ANIMAL SHELTER

A discussion on the proposed extension to the animal shelter was the chief item of business at the regular meeting of the Lincoln County Humane Society, held last Thursday night in a committee room of the Municipal Building. Sketches will be drawn up immediately and submitted to the Township of Grantham for approval.

Plans for the society's annual membership drive, to be held May 14 to May 31, were discussed. The final arrangements will be handled by a committee.

Miss Gwen O'Loughlin reported on the Junior work and on the plans for Be Kind to Animals week in May, at which time it is hoped that coin boxes can be placed in banks and stores. The Juniors' food parcels for animals in Britain, which are receiving wide-spread interest, are still being sent. The W.A. is planning on some decorating at the inspector's residence and also the building of a fence.

The inspector's report showed 302 calls received at the shelter during the month of March; 18 complaints investigated and 13 warnings issued; 21 inspections made; two prosecutions and two convictions; 24 accidents attended and three animals rescued.

During the month the Society's ambulance travelled 1,265 miles.

## Classified Advertisements

## WORLD FAMOUS ACTOR COMING TO GRIMSBY

Dickson-Kenwin will Present "Cameos Of The Drama" Under Auspices Of The Players' Guild.

Dickson-Kenwin has been lauded by the critics of the theatre, not only in the British Empire and the United States of America, but wherever the English tongue is spoken and the works of great dramatists are known and loved. Many of the most important seats of learning in North America have obtained the services of Dickson-Kenwin as Producer and Tutor in the arts and crafts of the stage. He has appeared in command performances before three crowned heads of Europe. Royal Princes of India and a President of the United States. In 1927 he established the Canadian Academy of Dramatic Art and has given his outstanding programme of Character Studies in towns and cities throughout the Dominion, from coast to coast.

This noted character actor is now engaged on his third successful continental tour and his two hour programme enthrals his audiences, and awakens in them a renewed interest in the art of the living theatre.

This world-famous actor is appearing for one night only, Friday, April 23rd, in the High School Auditorium, under the auspices of the Grimsby Players' Guild and his presentation is well worth seeing.

Prosperity makes a fool out of a lot of people. In the old days, they didn't have enough money to hire a psychiatrist to tell a man what was the matter with him.

## BREVITIES

## EVENTS and TOPICS of the WEEK in TABLOID

Lions Club "Leap Year Revue" in High school auditorium tonight and tomorrow night.

A number of members of West Lincoln branch, Canadian Legion, attended the district convention of branched in Welland on Sunday.

Canadian Bank of Commerce will accept donations for the Cancer Fund. John W. Holder is the chairman of the fund in this district.

Another Grimsby boy has joined the Ontario Provincial Police. This time it is Hugh Thompson. He is now stationed at Port Dalhousie.

There were 62 property transfers in St. Catharines during March for a consideration of \$239,016. An additional ten were transferred for the sum of \$1 each.

The annual zone meeting of Lions Clubs, will be held at the Club Henley, St. Catharines, on Tuesday night next. Deputy-Governor P. V. Smith and the Grimsby Club will be hosts for the evening.

Niagara Falls, Ont., April 11th Game warden Roy Muma announced that he has released 250 yearling pheasants in Welland County. The birds came from the Pheasant Breeders' Association at St. Catharines.

It seems that war times are normal times.

## CHECK RESTAURANTS

A strict check will be made by officials of the St. Catharines-Lincoln Health Unit on all eating establishments which operate only during the summer season. With new regulations in effect applying to all places serving food, the check will be made to ensure that proper steps are being taken to comply with all rules. All proprietors of such summer establishments are requested to contact St. Catharines Lincoln Health Unit of officials before opening for the season.

## LITTLE HIGHWAY WORK IN THIS AREA LIKELY

No important highway work in this district is included in the list of tenders being called for at the present time by the Ontario Department of Highways.

A total of only 28½ miles of road is to be given surface treatment in the Hamilton division of some 650 miles. Tenders are called for to surface treat Highway No. 54, from Cainsville to Onondaga; No. 56, from Binbrook to Canfield; No. 58, from Back Horse Corners to Thorold, and No. 7 from Norval to the junction of Highway No. 10.

## LEGION JOTTINGS

WEST LINCOLN BRANCH, No. 127

The Executive Committee met on Wednesday, April 14th, to discuss Legion business, and prepare recommendations for the next General meeting.

The next general meeting of the Branch will be held on Wednesday, April 21st, when several new matters will be put before the members.

The "B" District meeting was held in Welland on April 11th, the Branch was represented by C. A. Mason, Walter Grossmith and Doug Scott. A report of this meeting will be presented at the next monthly meeting.

Arrangements are now completed for the Legion Bridge and Euchre, which will be held at the Masonic Hall on Thursday, April 29th. Tickets will be available from Legion members.

Have you seen the new flag on the Legion flagstaff?

## EMPLOYEE OF TOWN SUDDENLY STRICKEN

## FEAR MORE DAMAGE AS THE LAKE RISES

A well known employee of the Town of Grimsby, James Scott, town teamster, suffered a sudden seizure on Wednesday morning and passed away before medical aid could reach him.

Deceased, along with Mike Sweet, was engaged in cutting down a tree on Murray street when shortly before 11 o'clock he complained of not feeling well but after resting for a few minutes started work again. Shortly after 11 o'clock he decided to leave the job and return to the town work shop. In company with Sweet he was walking down the street and when in front of Henley's service station he suddenly collapsed and passed away.

The late Mr. Scott was born in Scotland 54 years ago and came to Canada with his family 42 years ago and then to Grimsby 15 years ago.

He is survived by his wife, the former Clara Cummings, one daughter, Ruby, and one son, James, both at home. His father, Samuel James Scott, Caledonia; two brothers, William of Glanford Station, and Allan of Caledonia; one sister, Mrs. Roy Walker of Caledonia also survive.

Remains are resting at the St. Catharines Funeral Home where service will be held on Saturday afternoon at two p.m. Interment will be in Queen's Lawn cemetery.

A man never gets too old to retire from a political war.

Ho, hum! Just to think the old boys thought taxation without representation was bad.

## HEWSON'S COAL

FARMERS MUST GET RID OF CORN BORER

All growers of corn both in gardens and fields will no doubt have noticed the presence of corn borer in their corn last year, this of course was the result of not getting the old corn remnants destroyed in the early part of May, the work being delayed by the very late and wet spring.

The presence of corn borer last year, may well be the start of a very serious outbreak in this year's crop, unless every grower makes use of the only preventive measure known, namely, to gather and burn or bury dry, all corn remnants before May 20th. This date is the deadline for the clean up.

Co-operation of all growers is co-operation in making this year's clean up the best yet and thus head off, what may prove a serious loss in 1948.
